Subject: Re: quick question

Hi Sarah,
We have provided that clearance to them. We have not required that they report that to us, and even when they do begin using the Animas they may still supplement with other sources. However, I will let you know if/when we hear that they are starting to use again. Thanks.

Hi Ron –

Will you let me know when you hear Durango and Glacier Club turn their intakes on the Animas back on? Our political folks are asking.

Thanks!
